How to send your notice

Send this completed form, or simply a clear message of your own, to the email address or WhatsApp number above. Using this form is optional.

To terminate the contract at the end of the current calendar month, the coach must receive your notice no later than the last day of that month. Receipt of the notice is decisive, rather than when it is subsequently read or acknowledged. An acknowledgement is not a condition for the notice to take effect.

A parent who has entered into the coaching contract in their own name gives notice as the contracting party. Naming the person receiving coaching helps identify the contract.

Statutory rights to end the contract early or to terminate it for good cause remain unaffected. This template does not replace any online termination function that may be required by law.
